

# Gigaset

Enjoy freedom of movement with the convenience of handsfree talking.

## DA410

Talk, type and do anything you choose with the Gigaset DA410. This phone combines the simplicity of a corded device with the convenience of handsfree talking, leaving you free to multitask. With its four direct dial keys letting you call with a single touch, as well as ten speed dial numbers for quick connection options, the Gigaset DA410 is straightforward and intuitive.

## Feature highlights

- 4 programmable direct keys for one-touch connection
- 10 speed dial numbers for quick dialling
- Call notification: 3 melodies and volumes as well as ringer off
- Last number redial
- For PABX and PSTN operation
- Wall mountable
- Hearing aid compatible (HAC)
- Pulse dialling, tone dialling, flash time adjustable
- Cable length (0.35–2 m; 2 m)
- Easy installation & operation; reduced complexity
- Mute key with melody

### Straightforward but versatile

Choose the Gigaset DA410 for the simplicity of a corded phone with the convenience of handsfree talking. PABX and PSTN compatibility allows you to either connect straight to the fixed line network or use it as part of an internal network of phones within the

home or office. Leave it on your desk within easy reach or mount it to the wall to save space.

The Gigaset DA410 is hearing aid compatible and allows you to put someone on hold while you accomplish a separate task by pressing the mute key. Your contact will then hear a melody until you get back to them. You can choose to use either pulse or tone dialling, and flash time is also adjustable.

The phone provides a choice of ten melodies and four volumes (as well as a ringer off option), so you are certain to find a combination that suits your personal taste. The visual call notification function ensures you won't miss calls even when the ringer is turned off.

To quickly call back the last person you dialled, make use of the convenient last number redial function to get in contact with them again. The Gigaset DA410 truly is an all-round reliable desk phone with the added bonus of handsfree talking.
